Air Global Care is the first Airline with the sole purpose to serve humanity.

With our vast aviation and medical industry partners, Global Care will have the ability to fly medical missions around the world efficiently.

When minutes decide life or death, Global Care has the ability to react faster than any other non-government agency during a natural or manmade disasters.

The Global Care fleet has the ability to transport 300+ medical professionals and 450,000+ lbs of aid anywhere around the world within 24 hours.

Global Care will quickly deliver mobile medical pods to constructed clinics or hospitals in remote villages or near disaster zones to efficiently care for families requiring medical care.

The Global Care Boeing 747 cargo Aircraft can deliver 230,000 lbs of cargo per day.

The Global Care Boeing 747 Flying Hospital will fly to numerous countries each month delivering aid and doctors.

Many aviation industry leaders have pledged to support Global Care operations by providing free and discounted Aircraft parts, jet fuel, pilots, technical support and heavy/light maintenance.

Numerous medical industry leaders have also pledged to support Global Care missions by providing free medicine, medical equipment and medical professionals.

Air Global Care Aircraft will proudly wear sponsor logos to provide ongoing exposure for all Global Care partners.
